

Victor® Insect Magnet®

Directions:

1. Carefully remove center strip along perforation (figure 1).
2. Separate into two traps (figure 2).
3. Place traps in corners in cabinets, kitchens, bathrooms or any other places where roaches are likely to hide (figure 3). The Insect Magnet® is non-poisonous and safe to use in kitchens and bathrooms.
4. Keep traps in one location for three to four days. If they remain empty, move them to other areas.
5. For best results, discard trap when full, or replace after 60 days.

NOTE: Avoid contact with insects inside trap.
